Docket No. GJE-87
Serial No. 10/081,599

In the Specification

Please amend the subject specification as follows:

At page 7, after line 5, please insert the following paragraphs:

FIGURE 8. Four different hulglIG3 clones as shown in Fig. 8 were used to produce chimeric mice and also resulted in germ line transmission mice.

FIGURE 9. Southern blot showing both genes/regions, pBAC and HIS3 in URA3, allow homologous integration into the YAC.
